Subject: TAGA Air Monitoring Event in Alpha Branch
Date: Tuesday, September 19, 2017 12:37:58 PM
Attachments: [TAGA FM Plan revd 9-15-17_Ford.xlsx](#)

Anthony:

I apologize for not sharing this information. Here is the attached schedule for the Air Monitoring for the TAGA Bus in the various Branches. They should all be completed by this Friday. As you know, this asset was pushed down by the Region to get air information primarily near areas of concentrated industrial facilities and also some of the areas where spills may have been reported.

Thanks
